1. Introduction

Device Registration Subsystem (DRS) is the subsystem of Device Identification, Registration & Blocking System (DIRBS). It provides a platform for an exporter to request their IMEIs to be deregistered.

Exporters are people who are licensed to export devices out of the country e.g. they could be, refurbishes etc.

The Device Identification, Registration & Blocking System (DIRBS) is a country-wide system deployed in cooperation between the country regulator, operators in that country, and a technology partner that supports deployment. The system checks, identifies, and discourages non-compliant devices by verifying the installed base of devices currently active in a market and continuing to monitor as new devices are activated.

DIRBS can verify that:

- Devices have properly allocated identifiers and type approval
- Devices are not duplicated or stolen
- Device importation takes place through legal channels

1.1. Purpose

This document is intended to give assistance to user to use the Device Registration Subsystem (DRS).

1.2. Supported Desktop Browsers

Table 1-Supported Desktop Browsers

Name	Version
Internet Explorer	11.0
Firefox 52.5 ESR	57.0
Chrome	63.0
Safari	11.0
Edge	41.16299

1.3. Supported Mobile Browsers

Table 2-Supported Mobile Browsers

Name	Version
Chrome	63.0
UC Browser	11.5
Opera (Android)	44.1
Opera(iOS)	16.0.7
Safari	11.1
Samsung Internet	6.2
Android	4.1.x - 4.3

1.4. Definitions, Acronyms, and Abbreviations

Table 3-Definition, Acronyms, and Abbreviations

Term	Definition
DIRBS	Device Identification Registration and Blocking System
IAM	Identity Access Management System
DRS	Device Registration Subsystem
MSISDN	Mobile Subscriber Integrated Services Directory Number
IMEI	International Mobile Equipment Identity
IMSI	International mobile subscriber identity
TAC	Type Allocation Code

2. System Description

Table 4-System Description

Feature/Sections	Explanation
Login Screen	<ul style="list-style-type: none">• To access the system, authorized user first needs to enter his/her credentials on login page, this login page authenticates user from the IAM and redirects user to DRS
Portal Sections	<p>The portal is divided into the following sections.</p> <ul style="list-style-type: none">• Header Header section displays name of the system and it contains following features.• Language selection Drop-Down Allows user to change the language of system in English, Spanish and Indonesian.• User profile Drop-down Displays the user name with logout functionality.• Notification Alert Icon Generates the notification whenever the user (reviewer) updates/modifies status of the request (i.e. Approved, Information Requested, Rejected).• Navigation Panel Navigation Panel contains main navigation menu through which user can navigate the whole system.• Main Content Area Main Content Area contains all the content to be displayed and actions to be performed for respective feature.• Breadcrumbs Breadcrumbs allow user to keep track of their location within the system.• Footer Footer contains the software version and copyright text.
Dashboard	<ul style="list-style-type: none">• The dashboard displays the total count of pending reviews, awaited documents, in-review requests and information requested requests. Also, it displays the recent pending requests along with their details

Feature/Sections	Explanation
Deregistration	<ul style="list-style-type: none"> Facilitate user to deregister their device IMEIs by completing following two steps <ul style="list-style-type: none"> Basic Deregistration Details Approval Documents
Required Input(s) for Basic De-Registration	<ul style="list-style-type: none"> Device Count Takes the total number of devices as input. Device IMEIs Takes the file that contains valid IMEI as input.
Device Model Information	<p>Displays complete information of device model in a table.</p> <p>Device Model Information</p> <ul style="list-style-type: none"> Brand Displays the brand name of device. Model Name Displays the model name of device. Model Number Displays the model number of device. Device Type Displays the device type i.e. smartphone, tablet etc. Operating System Displays the operating system of device i.e. Android or iOS. Radio access technology Displays the radio access technologies of that device i.e. 2G, 3G, 4G, 5G etc. Device Count Takes the total number of devices as input.
Approval Documents	<ul style="list-style-type: none"> Three types of approval documents are required for deregistration of the device <ul style="list-style-type: none"> Shipment Document Authorization Document Certificate Document

Feature/Sections	Explanation
Search Requests	<ul style="list-style-type: none">• Allows user to search a particular request by applying different filters i.e. request ID, request status, device IMEI, create date, last updated, brand, model name, model number, device type, operating system, technologies, device count
Request Status	<ul style="list-style-type: none">• New Request Verify details of the device model.• Awaiting Documents Approval documents are required to be uploaded.• Pending Review Request is not yet assigned to any authorized entity.• In Review Request has assigned to authorized entity.• Information Requested Request has some missing information.• Approved Request has been approved by authorized entity.• Rejected Request has been rejected by authorized entity due to invalid information.• Closed Request has been closed by the user.

3. System Navigation

3.1. Login Screen

1. Enter your credentials i.e. Username and Password.
2. Click on the “Log in” button.

Figure 1-Login Screen

3.2. Portal Sections

The portal is divided into following sections.

1. **Header** section displays name of system, a dropdown menu for language selection, notification alert icon and name of logged in user with logout functionality.
2. **Main Navigation Panel** helps user to navigate system.
3. **Breadcrumbs** is a navigational aid in UI.
4. **Main Content Area** contains all relevant information related to respective feature/option.
5. **Footer** contains version and copyrights statement.

The screenshot shows the DRS - Device Registration Subsystem portal. The interface includes a header bar with the system name, language dropdown, notification icon, and user information. A main navigation panel on the left lists options like Dashboard, De-registration, and Search request. The main content area displays four summary cards for Pending Reviews, Awaiting Documents, In Review Requests, and Information Requested, each with a count and a 'View' link. Below these is a table of recent pending requests. The footer contains copyright information and the version number.

#	Request ID	Request type	Device Count	Date created	Request status
1	[REDACTED]	De-registration	3	15:13 18/03/2019	Pending review
2	[REDACTED]	De-registration	3	12:33 18/03/2019	Pending review
3	[REDACTED]	De-registration	3	12:30 18/03/2019	Pending review
4	[REDACTED]	De-registration	3	12:28 18/03/2019	Pending review
5	[REDACTED]	De-registration	3	12:22 18/03/2019	Pending review
6	[REDACTED]	De-registration	3	12:17 18/03/2019	Pending review
7	[REDACTED]	De-registration	3	15:35 11/03/2019	Pending review
8	[REDACTED]	De-registration	3	14:33 11/03/2019	Pending review
9	[REDACTED]	De-registration	3	14:33 11/03/2019	Pending review
10	[REDACTED]	De-registration	3	12:04 29/10/2018	Pending review

Figure 2-Portal Sections

3.2.1. Language Menu

1. To select the required language, click on language drop-down menu.

The screenshot displays the DRS - Device Registration Subsystem dashboard. The top navigation bar is blue and contains the title "DRS - Device Registration Subsystem", a language drop-down menu (highlighted with a red box and a red circle with the number 1), a notification bell, and the user name "Hi, drs exporter user". The main navigation sidebar on the left includes "Dashboard", "De-registration", and "Search request". The dashboard content area features four cards: "Pending Reviews" (45 Requests), "Awaiting Documents" (61 Requests), "In Review Requests" (18 Requests), and "Information Requested" (1 Requests). Below these cards is a section titled "Recent pending requests" containing a table with 10 rows of request data.

#	Request ID	Request type	Device Count	Date created	Request status
1	[REDACTED]	De-registration	3	15:13 18/03/2019	Pending review
2	[REDACTED]	De-registration	3	12:33 18/03/2019	Pending review
3	[REDACTED]	De-registration	3	12:30 18/03/2019	Pending review
4	[REDACTED]	De-registration	3	12:28 18/03/2019	Pending review
5	[REDACTED]	De-registration	3	12:22 18/03/2019	Pending review
6	[REDACTED]	De-registration	3	12:17 18/03/2019	Pending review
7	[REDACTED]	De-registration	3	15:35 11/03/2019	Pending review
8	[REDACTED]	De-registration	3	14:33 11/03/2019	Pending review
9	[REDACTED]	De-registration	3	14:33 11/03/2019	Pending review
10	[REDACTED]	De-registration	3	12:04 29/10/2018	Pending review

3.3. Dashboard

By clicking on “login” button, user will be redirected to dashboard screen that displays total count of “Pending Reviews”, “Awaited Documents”, “In-Review Requests” and “Information Requested” requests. Also, it displays recent pending requests along with their details.

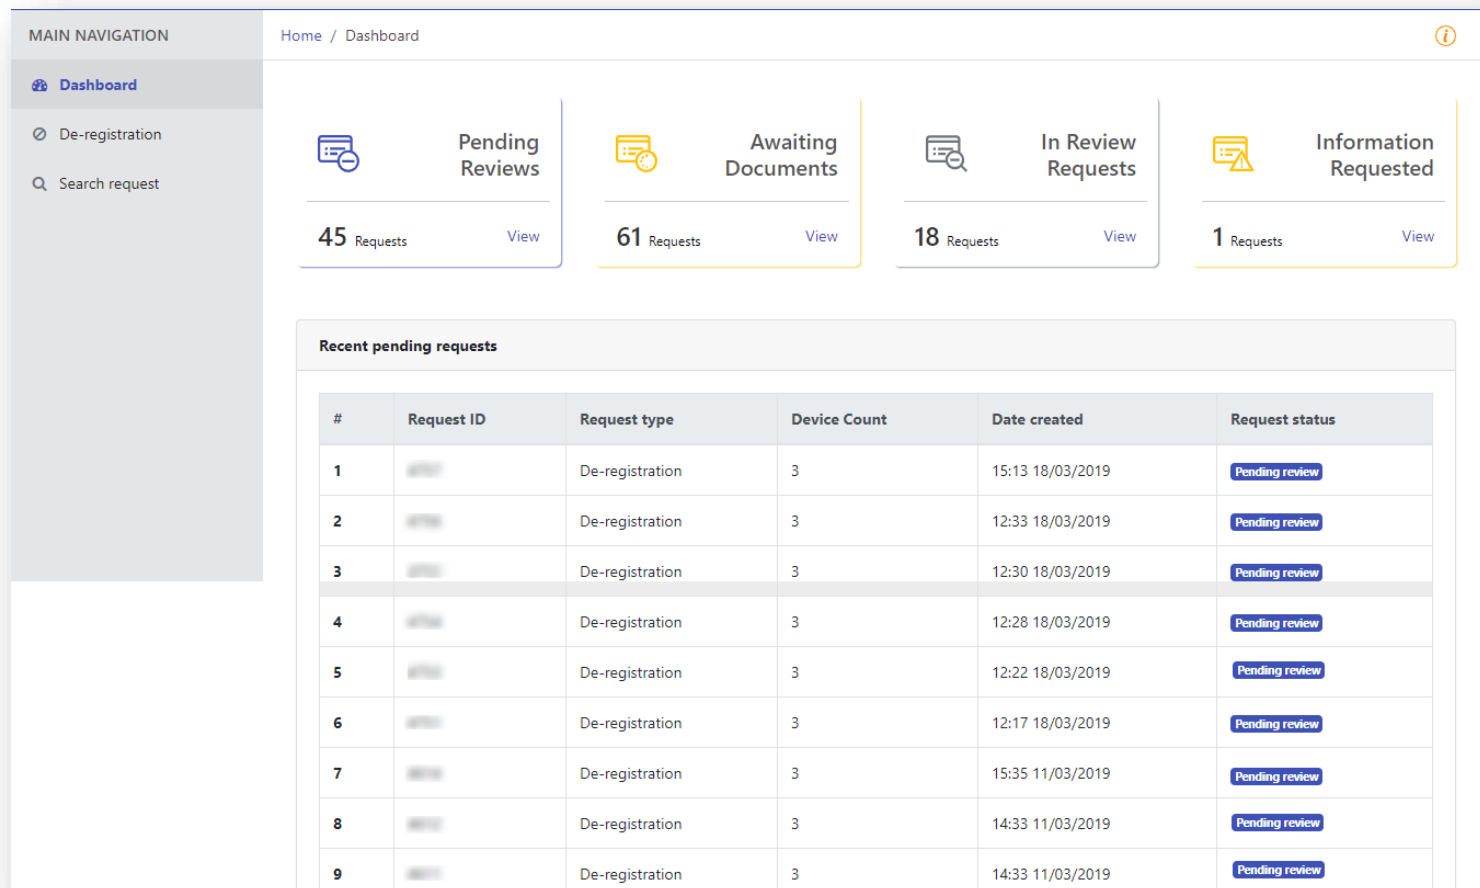

Figure 5-Dashboard

3.3.1. System Instructions

1. To view instructions, click on icon

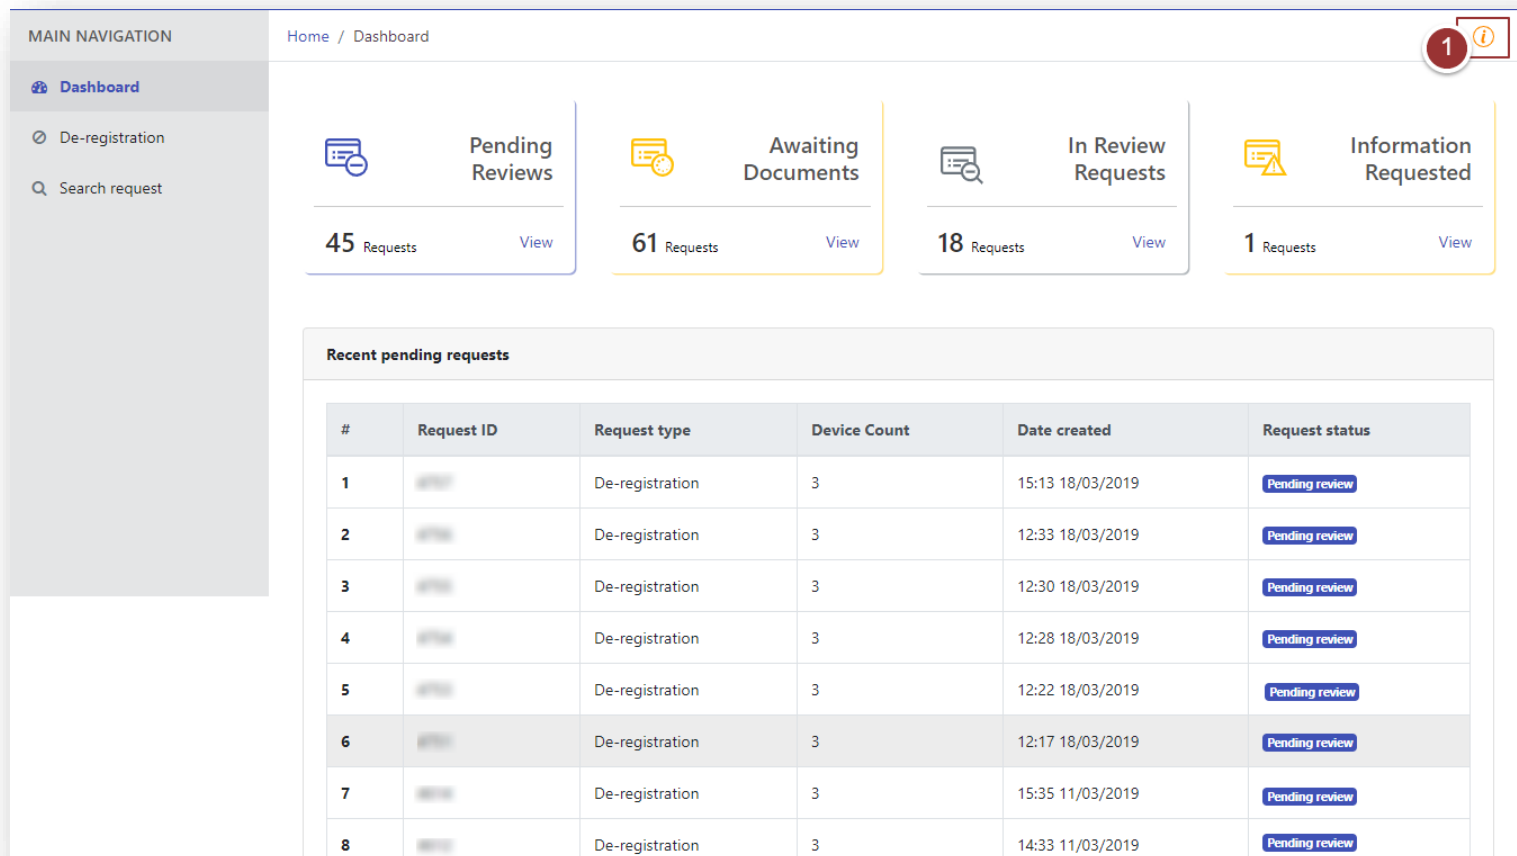

Figure 6-System Instructions

By clicking on instructions for user.

icon a pop up will appear that displays instructions

2. Click on “Close” button to proceed further.

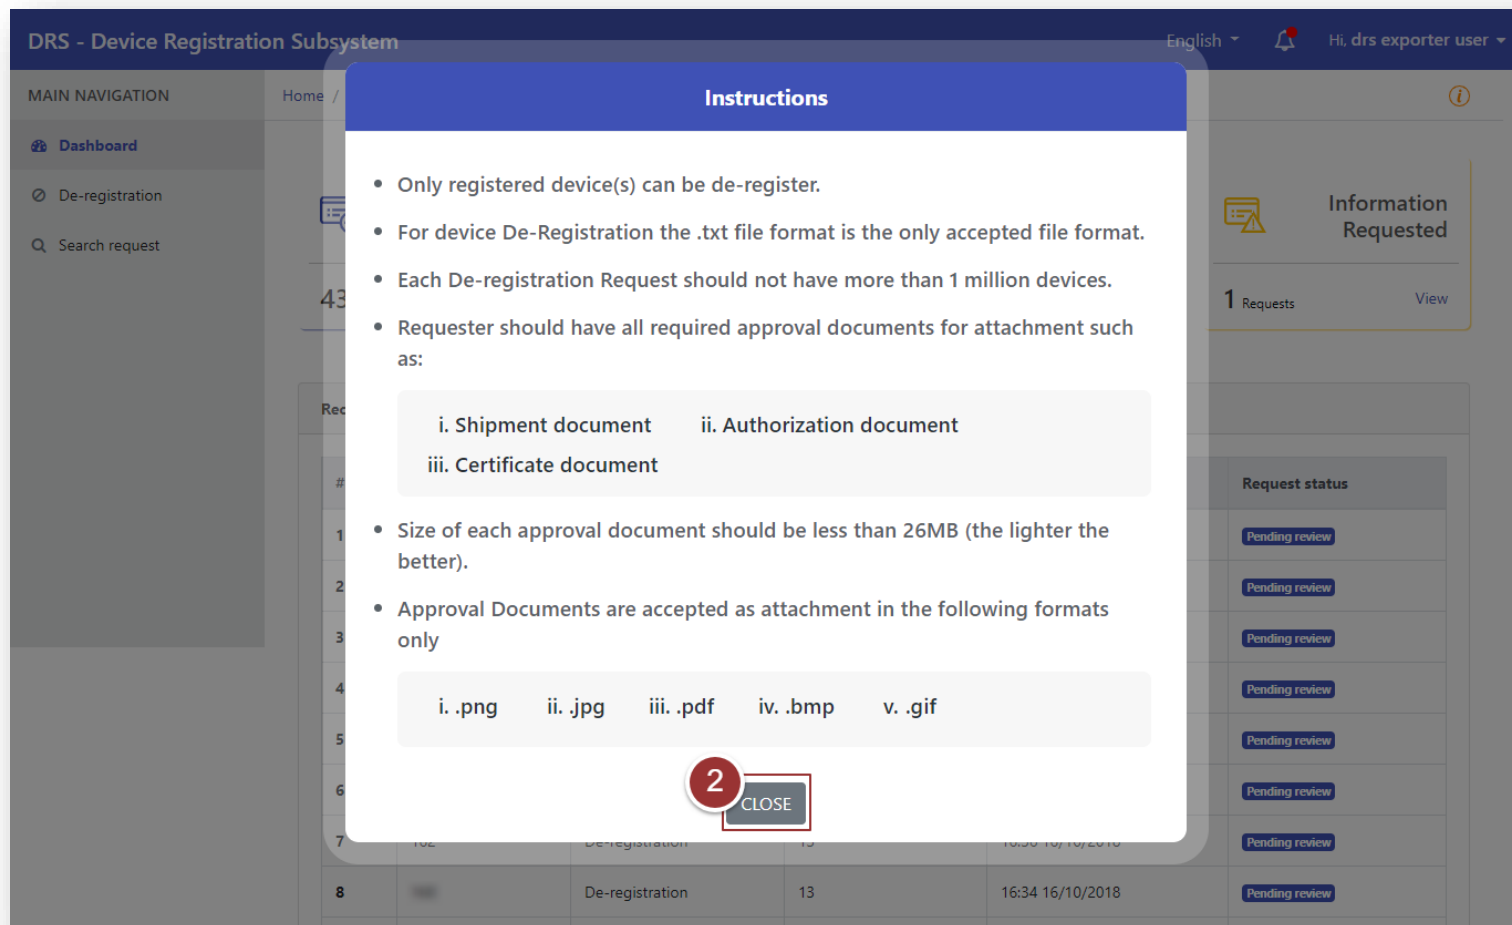

Figure 7-System Instructions 2

3.4. De-Registration

1. To request for device deregistration, click on “De-Registration” tab under “Main Navigation” heading.
2. Enter basic deregistration details i.e. Device IMEIs (“.txt” file extension), Device Count, Reason for De-registration.
3. Click on “Next” button.

The screenshot shows a web application interface for De-Registration. On the left is a 'MAIN NAVIGATION' sidebar with 'Dashboard' and 'De-Registration' (highlighted with a red box and a red circle with the number 1). The main content area has a breadcrumb 'Home / De-Registration' and a red box with a red circle with the number 2 around the 'Basic De-registration details' form. The form contains three fields: 'Device IMEIs *' with a 'Choose File' button and 'No file chosen' text; 'Device Count *' with a 'Device Count' text input; and 'Reason for De-registration *' with a text area containing the placeholder 'Type reason for De-registration'. At the bottom right of the form is a blue 'NEXT' button with a red circle and the number 3. To the right of the form is a sidebar with three sections: 'Basic De-registration details' (with an edit icon), 'Approval documents', and 'Sample IMEI File' (with a 'DOWNLOAD FILE' button).

Figure 8-Deregistration

A popup will appear that contains details of device model.

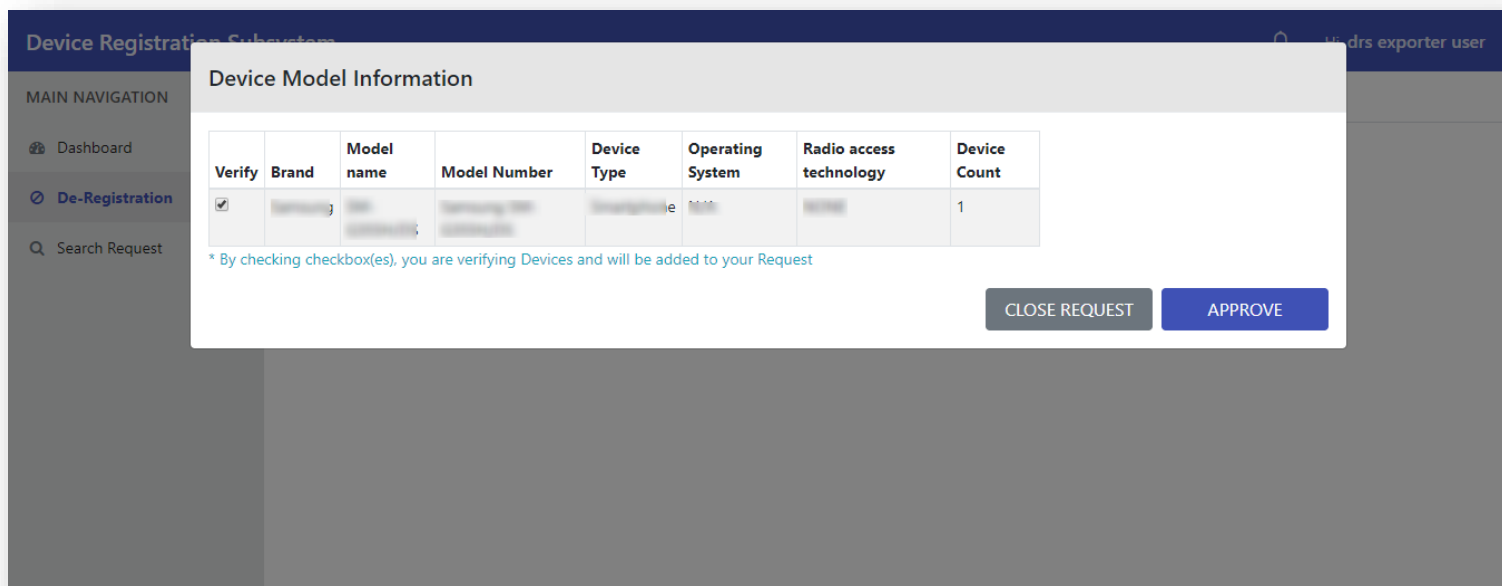

Figure 9-Device Model Information

3.4.1. Approve Request

Perform steps 1-3 as per [section 3.4](#)

4. To approve request, verify information and check checkbox(es) against registered device.
5. Click on “Approve” button.

Note: Only registered IMEIs can be approved.

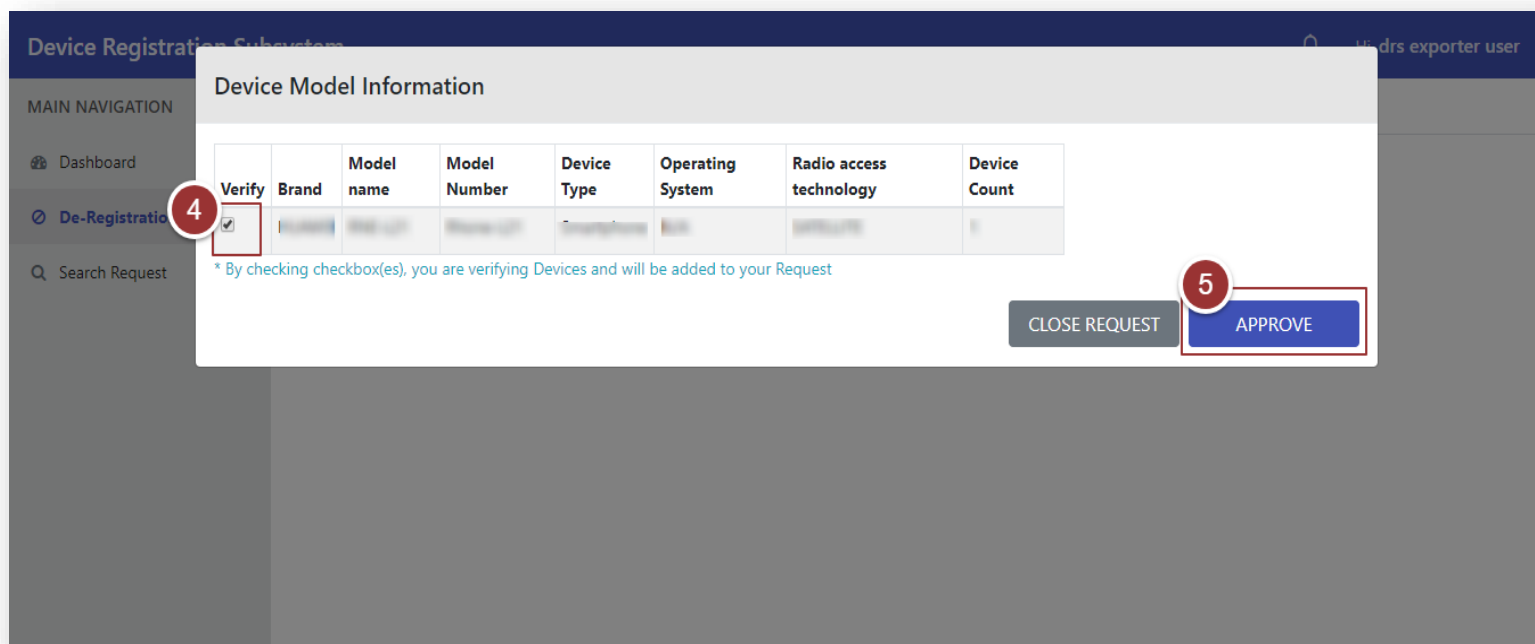

Figure 10-Approve Request

After clicking on “Approve” button it will redirect to a page where user upload approval documents i.e. Shipment Document, Authorization Document, and Certificate Document.

6. To upload file, click on “Choose File” button and select file containing required information.

Note: File should be in pre-defined format i.e. .png, .pdf, .jpeg, .bmp.

7. To view previous entered details i.e. Basic Deregistration Details and Device Model Information, click on “Previous Details” tab.
8. Click on “Submit” Button.
